Integrated Remote Job Coverage

We provide Audio, Video and Telemetry technology integrated on your sites network to achieve Remote Job coverage.

Audio:

As a certified vendor for Bosch (Telex/RTS) we can expand your audio capabilities site wide. Utilizing a digital intercom matrix we can connect multiple work groups and individuals.

Vocera is an instant voice recognition wireless communication system that will enhance your site wide communications and integrate with your Telex/RTS audio matrix and your site PBX for inbound and outbound calling to internal and external extensions.
