Emperor

With the signature Emperor scorpion shape and outline, an industrial grade steel structure, tilting capabilities, integrated audio system, LED lighting and much more, the Emperor is the future of high-end ergonomic console work environments.

The Emperor offers functionalities that enable the user to experience unprecedented comfort and efficient data management platform through strategically positioned monitors and accessories. The result is a complete console, ergonomically optimized, with a minimal footprint that improves overall performance and productivity. With the chair's unique design it also isolates the user from surrounding distractions.
